Re: Summary of Additional Public Comment for PUDA20-01 Haymeadow PUD Amendment
From: Jessica Lake, Planner I, Community Development Department

Since the packet was published on April 23, 2021, staff has received (7) additional public comment letters for the school swap request. (3) letters are in opposition to the school swap and (4) are in support of the school swap. Letters are noted below and are attached.

List of Public Comments:

1. Letter from Olden dated 04/19/2021.
2. Letter from Daly dated 04/24/2021.
3. Letter from Scanlon dated 04/24/2021.
4. Letter from Baccary dated 04/26/2021.
5. Letter from Blethen dated 4/27/2021.
6. Letter from Kinney dated 4/27/2021.
7. Letter from Schwartz dated 4/24/2021.
8. Letter from Rosenthal dated 4/27/2021 (received after public hearing).

Subject: Haymeadow PUD Amendment/school swap

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Dear Trustees and Mayor,

As another concerned citizen of the town of Eagle, I am submitting both my opposition to the PUD Amendment request by the developer of Haymeadow, and support for its denial by the Planning and Zoning Commission earlier this month. I am requesting its denial by the Board of Trustees as well.

While the developer is pursuing a more lucrative alternative to the school location in the original application, by supplanting it with more residential units to be sold and moving the school site further, I submit these reasons for my opposition:

1. this Amendment is a **substantial alteration** of the original PUD request

2. The Amendment itself should trigger **studies** that have not been already undertaken to study the new impacts: wildlife (collisions), traffic on Brush Creek and Eagle Ranch roads, additional water needs, police & fire management alterations, impacts on neighborhood near Ouzel, and noise.

3. Is the Amendment **appropriate** in light of the many impacts upon the greater community of Eagle? I submit that it is not, and that the overall "activity" that a school brings is more appropriately located near other "active" areas, such as the pool, ice rink, pumptrack, etc. This reduces the impacts mentioned in #2.

4. The school land being undeveloped until the need arises is NOT a negative issue with the surrounding community; such a reason to Amend the project, especially in light of the additional impacts in #2, is not a logical consideration.

5. The **cost to taxpayers** of school bus transportation of a farther distance - over decades - has not been analyzed yet would be an additional, unnecessary financial burden; increased traffic on Brush Creek road will increase management costs on the road base and staffing for the police department.

In closing, I urge the Board to consider the legacy of this decision; the

impact is too large, too negative, and too costly to all of us. This developer has already cost us too much money in staff time to review each "idea" it has, and enough is enough.

With respect,

Celena Olden
resident

Town Council Members,

Your decision will not be an easy one. Even though P&Z said "no", I encourage you to think and decide independently.

I can see the long-term value in the current positioning of the school next to the pool/ice rink. For many reasons that looks to be very "long term".

On the other hand, short-term, we face an increasingly dramatic housing shortage and escalation in prices (see attachment below.) I know some do not consider this a problem; you should not be surprised to hear that I DO see this as a problem!

Within two years, projects like Hockett Gulch will have gone a long way to alleviating the current shortage in rental inventory, allowing more workers to live here. That improvement, however, will only exacerbate the shortage in first-time buyer opportunities: homes priced \$400,000+. Those renter-buyers will have nowhere to go but elsewhere in the valley, probably Gypsum.

The revised Haymeadow PUD amendment certainly makes sense as the only foreseeable opportunity to address this shortage. I see no other development on the horizon that can do this; who knows when/if/how the Red Development property will be developed.

So, I believe your decision is one of priority and timing. Between prioritizing a solution to the very visible short-term housing inventory - to sustain healthy growth in our economy and population - versus a long-term (who knows how long!) preference for the location of a school that no-one knows when or whether it will be built.

On balance I would choose to approve the request, given what we can clearly see short-term, compared with an uncertain long-term future.

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Dear Angie and Jessica,

I am writing in opposition to the Haymeadow PUD Amendment. Please forward this email to the Town Council.

To swap a developed parcel of land owned by the Town for an undeveloped parcel would be a major mistake and miscarriage of Town Council's duties.. As the representative of the developer said at the P&Z meeting, the undeveloped parcel in Area C will likely remain undeveloped and used to grow hay for the next 20 years. There is no guarantee that the parcel will ever be developed. and there is no guarantee that it will ever be suitable for use as a school.

If you really want to put the school in Area C, you should delay the swap until Area C is fully developed and you have an appraisal showing that the parcels are of equal value.

If you really want a developer to build multifamily units on the existing Town-owned parcel, you should offer it for sale to insure that the Town receives a fair price.

Based on the recent sale price of the Hockett Gulch property, the town may be able to sell the existing school site for \$5,000,000. This would be much better than trading it for an undeveloped hay field, which is probably worth less than \$250,000 in its current undeveloped state.

None of the residents of Eagle want to see the Town make a foolish trade which serves only to provide the developer with millions of dollars in profit.

Please deny the proposed land swap.

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Good morning,

I am writing to voice my strong opposition to allow the developer to swap parcels. As a Brush Creek Village owner, we have seen increased traffic from the Soleil development. An additional high density housing development would bring extra traffic to this area. Also impacted would be the large deer and elk population in the area. The road cannot handle the impact his development plan would bring. This land should be kept as open space and/or recreational. Eagle is no longer the quaint little town, please keep it from becoming even more overdeveloped. Please don't allow the developer to swap parcels.

Thank you.

Hello Eagle Town Council

My family and I would like to voice our support for the proposed Haymeadow PUD Amendment. After reading through the proposal and attending the D&Z committee meeting earlier in the month, we believe the plan proposed by the developers makes sense for the community of Eagle and the project. The school board has made it clear that there is no need for a new school at this time, so moving the school site up the road and moving more high density housing closer to town makes sense. High density housing needs to be closer to town to accommodate more people using public transportation and non-gas powered transportation (walking, bikes, etc.) to access local businesses. The swap also allows the developers to move the project forward in the most cost effective manner, my hope is this will allow them to offer the best pricing on homes for potential buyers and allow local families to buy in Haymeadow. The developers have expressed their intentions to make this a part of the Eagle community for local families and not a place for 2nd and 3rd home owners. We believe the proposed PUD amendment will allow the developers to achieve this goal with the greatest efficiency.

We are a family of four and a dog who currently own a small condo in Eagle-Vail. I work for a company based in Eagle, I commute to Eagle every day to my office. My wife works for a hotel in Vail. We have been in the Vail Valley since 2003. We want to be a part of the Town of Eagle community and see our kids grow up in this amazing community. We all know about the challenges of buying a home in the current market in our valley. We see Haymeadow as a viable way to move our family to Eagle and want to see the Haymeadow project move forward.

Thank you for your time and consideration of our opinion. Please call or email me anytime with questions or comments. Thank you.

Subject: Haymeadow PUD change

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Sorry for the late email.

I am in favor of the change to Haymeadow PUD primarily because I believe that it will have less impact to my property and neighborhood.

Beyond that I believe there are two compelling reasons to approve the change. First smart planning and development has the most dense portions of residential districts in as close to the Town center and density decreases the farther out you go. This development originally violated that principle by having high density residential 2.5 miles from the city center.

Second and most importantly the town now has an opportunity to require the development to provide town with something it desires and needs. I would require the developer to dedicate to the town five residential units as a condition of approval with the stipulation that the units be used for town of Eagle and/or Emergency service workers)(Rec district too) only. I believe this wood is a win win both parties.

Thank you
Kraige Kinney

PS

Many communities have a dedicated residential unit(house or condo) for their town manager. The council could attempt to extract the same from this development as a condition of approval.

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Hi Everyone,

I was hoping to make this evening's board meeting and forgot I had a meeting at the studio until 8:30PM. Please feel free to share this email in it's entirety at the meeting.

I just wanted to take a moment to make a public comment of support for Haymeadow's proposal to

plug in some smaller, more “affordable”, houses to our community.

I realize this changes their original proposal and will move the location for the proposed school but I am a strong believer we desperately need more diversity in our housing in town. I recently got divorced and it has been impossible for me to find housing in this town that I can afford (let alone be able to have my kids with me). There are no options under \$450K right now. The rental market is insane with two bedroom lock off apartments going for over \$2,200/month.

I have been a business owner in Eagle for over 10 years and am so disappointed in the lack of opportunity to find an adequate place to live with my kids. It is sad to me that I am an “established” person in this community and I can not afford to live here. I believe the lack of diversity in our housing is reducing our opportunity to attract diversity in our community members and is causing our locals to struggle.

Please consider amending the Haymeadow proposal so that we can add the housing we desperately need instead of a school that is not yet needed.

Thank you,
Yvonne Schwartz
