

# TOWN OF EAGLE UPGRADED TRASH SERVICE COMING SOON!

The Town of Eagle Town Council has approved an upgraded trash service to make waste management easier and more sustainable for our community.

## This upgraded service will include:

- Your current **96-gallon** container now becomes your Single-Stream Recycling container (all in 1 bin) - **Biweekly Service**
- You will receive a New **64-gallon** Bear-resistant Trash Container - **Weekly Service**
- You will receive a New **32-gallon** Curbside Organic Composting Bear-resistant container - **Biweekly Service**
- The new monthly rate is **\$41.75**.

## IMPORTANT INFORMATION!

### Aug. 22—25: Residents with Tuesday—Friday Service

### Aug. 28: Residents with Monday Service

Delivery of your new **64-gallon** bear-resistance trash container & re-labeling your **96-gallon** container to single-stream recycling. **Delivery will take place on your regular scheduled day.**

- All trash containers and recycle bins must be out on your day of service on these dates.
- You will receive a new **64-gallon** bear-resistance trash container to be delivered and labeled with your address.
- Your existing **96-gallon** container will be labeled single stream and with your address.
- Removal of all **18-gallon** recycle bins from each resident.
- Failure to have them ready will result in a re-delivery fee of \$50.00. For re-delivery, email [jennifer@vailhoneywagon.com](mailto:jennifer@vailhoneywagon.com) with the requested date.

### Week of Aug. 28:

New bear-resistant **32-gallon** organic compost containers will be delivered.

- **NOTE:** On Aug. 28, residents with a Monday trash schedule receive delivery of the **64-gallon** bear resistance trash container and the re-labeling recycling bins (stated above) in addition to the new compost bin delivery. **Please have your recycling bin out on this date—it is not your regular recycling date.**
- Suppose you wish to opt out of curbside composting. In that case, you **MUST** notify Vail Honeywagon before delivery (if the container is delivered and you later decide not to compost, a removal fee of \$50.00 will be assessed). To opt-out, please email [jennifer@vailhoneywagon.com](mailto:jennifer@vailhoneywagon.com).
- **NOTE:** Opting out of composting will not reduce your monthly fee.

Service will not be disrupted during this delivery period. The schedule will remain the same for trash and recycling. Compost will be the opposite week of recycling.

## LEARN MORE!

Want to learn more about this upgraded service? Have questions about single-stream recycling? Need more information about composting? Vail Honeywagon will be hosting three information sessions over the coming weeks.

**Wednesday, August 9**

6pm - 8pm

**Wednesday, August 16**

9am - 11am

## SUSTAINABILITY

Increasing the opportunity for community members to recycle and compost their waste materials is a dramatic step toward reducing Eagle's carbon and progress towards the town's net zero 2030 goal. With this new service, the Town will be the leader in sustainable waste management options in the Western Slope.
