

# NOTICE

## **Haymaker Trail Berm Descent CLOSED FOR MAINTENANCE July 22 – July 29, 2024**

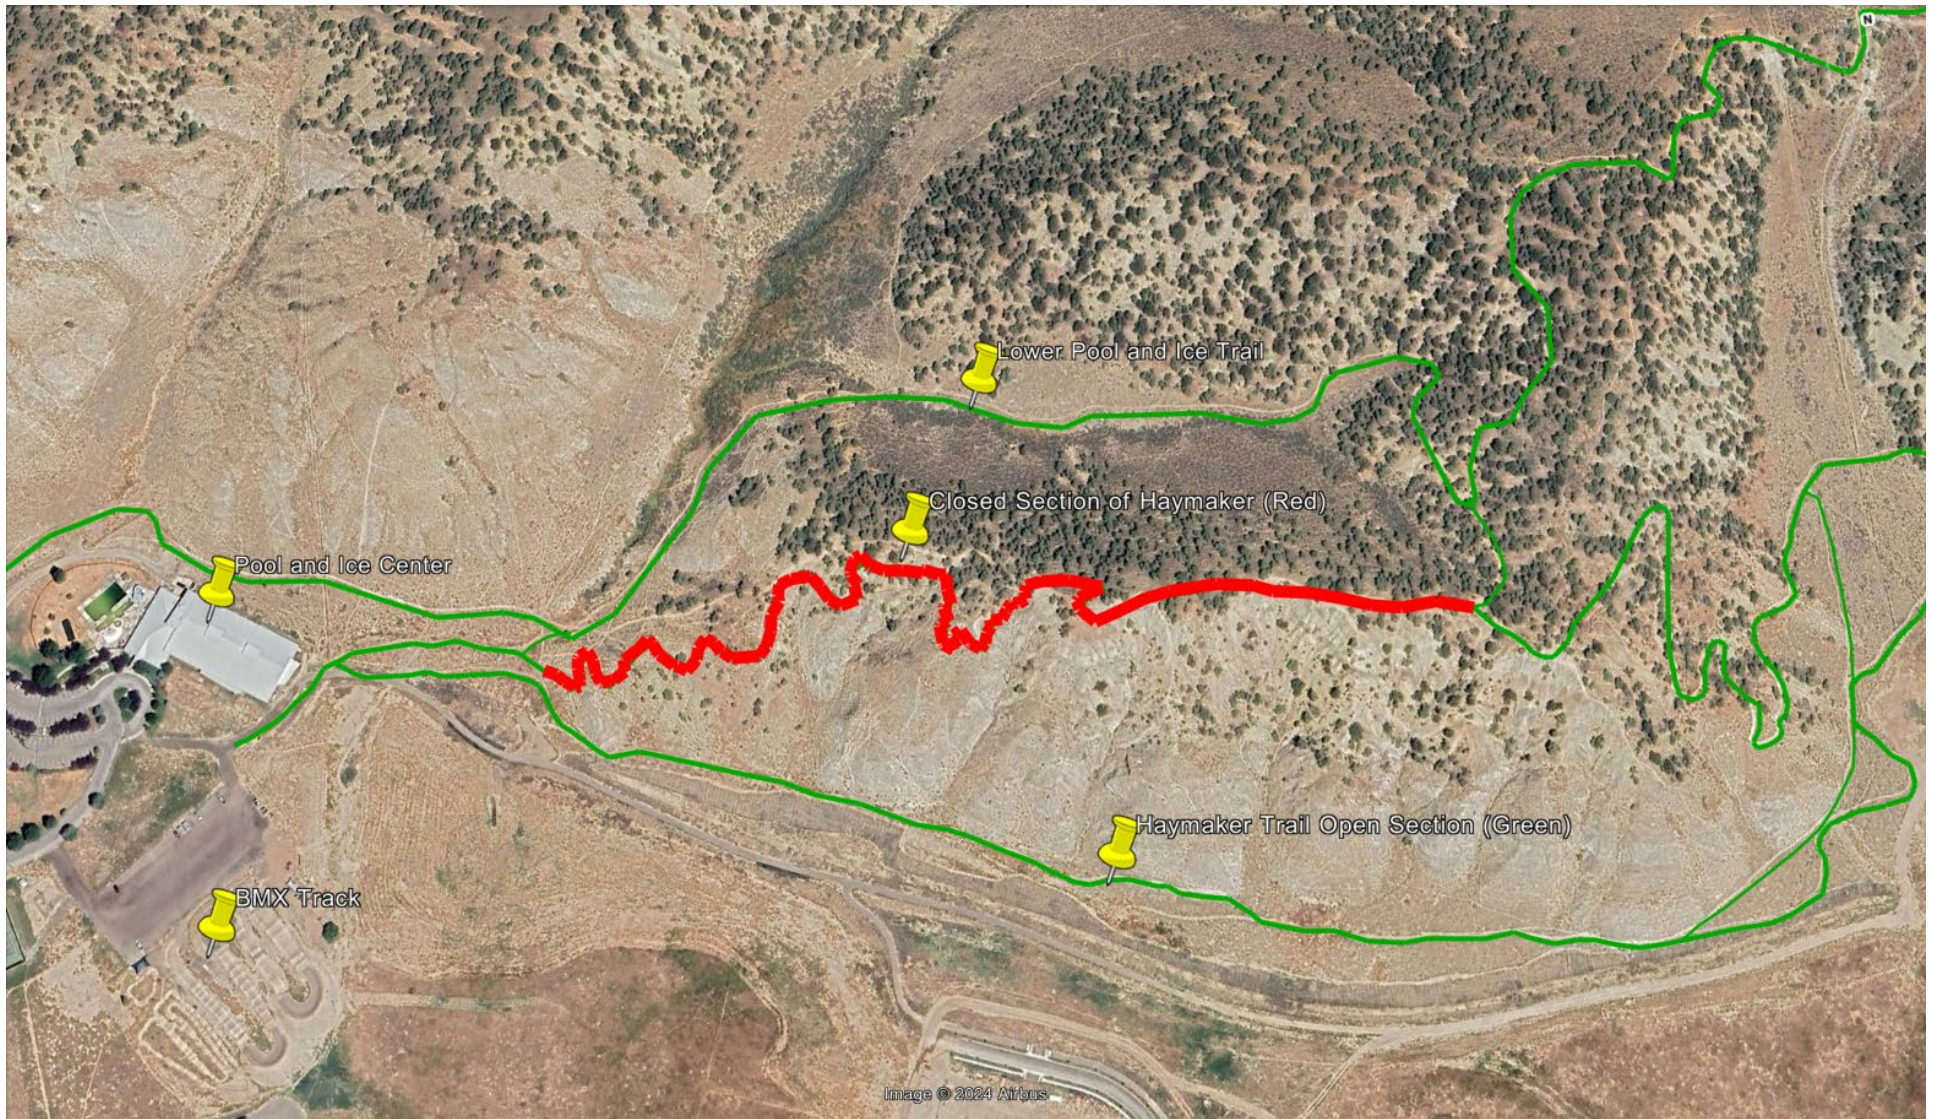

The berm descent section of the Haymaker Trail will be closed for trail maintenance from July 22 – July 29, 2024. A map of the closed section is included below.

The Town of Eagle Open Space and Trails Department is completing trail maintenance on the berm descent section of the Haymaker Trail to accomplish minor reroutes that will permit the trail to be used during the annual High School Mountain Bike races.

Please do not use the closed section of the trail during construction. Large machinery will be on the trail, and it will be very dangerous. The rest of the trail will remain open during the construction.

Please contact the Open Space and Trails Department with any questions at [Openspace@townofeagle.org](mailto:Openspace@townofeagle.org) or 970-404-9710.

Thank you for your cooperation and understanding!

The closed section of the trail is in red, and the open sections are in green. During the construction, use the lower Pool and Ice trail to complete the last Haymaker loop back to the trailhead.
