RE: Eagle - 1215 Chambers Storage

Dear Manager,

The above-mentioned development is within the certified service area of Holy Cross Energy.

Holy Cross Energy has adequate power supply to provide electric power to the development, subject to tariffs, rules and regulations on file. Any power line enlargements, relocations, and new extensions necessary to deliver adequate power to and within the development will be undertaken by Holy Cross Energy upon completion of appropriate contractual agreements and subject to necessary governmental approvals.

Additionally, due to current supply chain issues, Holy Cross Energy is not stocking the quantity of construction materials as in past years. Please advise us as soon as possible. You will need to enter into agreements with Holy Cross Energy, and pay for the project, sufficiently in advance of construction to avoid possible delays while materials are procured.

Please advise when you wish to proceed with the development of the electric system for this project.

Keith Hernandez

Re: 1215 Chambers Ave, Eagle CO 81631

Dear Alison Perry,

Black Hills Energy has existing natural gas facilities located on or near the above-mentioned project. At this time, it appears that these existing facilities have adequate capacity to provide natural gas service to your project, subject to the tariffs, rules and regulations on file. Any upgrading of our facilities necessary to deliver adequate service to and within the development will be undertaken by Black Hills Energy upon completion of appropriate contractual agreements and subject to necessary governmental approvals.

Please contact us with any questions regarding this project, and with a timeline of when you would like to proceed with your project.

Sincerely,

Mark Fadick

RE: 1215 Chambers Ave

To whom it may concern:

Your request for facilities to 1215 Chambers Ave is within CenturyLink/Lumen's serving area and will be provided in accordance with all the rates and tariffs set forth by the Colorado Public Utilities Commission.

Connections to CenturyLink/Lumen facilities are contingent upon the customer meeting all the requirements of the Utilities tariffs that are in effect for each requested utility service at the time the application for service is made by the customer and formally accepted by CenturyLink/Lumen. Connection requirements may include provisions for necessary line extensions and/or other system improvements, and payment of all applicable system development charges, recovery agreement charges and other fees or charges applicable to the requested service.

Although CenturyLink/Lumen diligently seeks to expand its facilities as necessary to meet anticipated growth, CenturyLink/Lumen services are provided to eligible customers at the time of connection to the facilities on a "first come, first served" basis after acceptance of the customer's application as described above. In certain instances, our facilities and capacities may be limited. Accordingly, no specific allocations or amounts of CenturyLink/Lumen facilities or supplies are reserved for service to the subject property, and no commitments are made as to the availability of CenturyLink/Lumen service at future times.

Sincerely,

Jason Sharpe
